

## Animation workshop!

13<sup>th</sup> & 14<sup>th</sup> April 2023

**Aged 11-16? Join us for a two day animation workshop at the John Hansard Gallery! Explore model making to create a futuristic, fictional world.**

On the 13<sup>th</sup> & 14<sup>th</sup> April between 10am – 4:30pm, work alongside model maker, set designer and animator [Nathan Ward](#) to create characters using cardboard construction. With the help of [City Eye](#) film production, turn your creations into life by filming a day in the life of your character!

Based on the [David Blandy](#) exhibition [Atomic Light](#), on show between the 11<sup>th</sup> February and 6<sup>th</sup> May, this workshop will link to the themes of how our future is in our hands, and what this future may look like if we don't act now!

We hope that you will:

- Work hard as part of a team!
- Be willing to try new techniques and skills.
- Be respectful and mindful of the gallery, staff and artwork, especially each other's!
- Available to attend both sessions.
- Suitable for beginners! We will teach you everything you need to know!

If you would like to book onto this workshop, or have any questions, please let Florence know by emailing [florence@jhg.art](mailto:florence@jhg.art).
